

Printer Fleet Management

Virtually every company still relies on paper, even in the digital age. Whether it's printing, copying, faxing or scanning, output can cost you up to 3% of your revenue. Image and Print Management can maximize cost savings and productivity while minimizing IT department headaches. Adequately addressing users' changing hardcopy needs can substantially reduce costs, increase productivity, and improve workflow.

Image and Print Management can help you:

- Reduce recurring hardcopy costs by as much as 30%
- Increase user productivity, workflow efficiency and utilization of IT assets for a higher return on investment.
- Free up IT resources for assignment to higher-value initiatives
- Gain greater control of assets, enabling informed decisions in response to change.

Reduce Costs

- HP Multifunction printers (MFP) let you manage fewer consumables, reducing your total cost of ownership, storage requirements, and service interruptions.
- With HP MFP's you not only save 20-40% today over the combined cost of four single-function products, you get an investment that can easily adapt and evolve when business needs change.

Increase Productivity and Workflow

- An HP MFP can streamline communications with optional digital sending services and advanced document management solutions.
- Improve device management and uptime with remote management of HP printers and HP MFP's including low toner and service needs.

Synergy's Total Fleet Management

- Simplify supplies management with HP MFP's that offer smart printing systems, toner level sensors, automated supplies ordering, all remotely monitored by our 24x7 network operations center
- We handle all of the support tasks including firmware upgrades, automated supplies replenishment, and more.
- Automatic dispatch of technicians to perform corrective and preventative maintenance as needed.

HP and Synergy offer a broad portfolio of devices and services to help increase asset utilization, reduce costs, and improve workflow. Synergy's products and services, enterprise expertise, and reputation for innovation and reliability distinguish us as your valued partner.

“Gartner estimates that businesses can reduce their print spending by 10 percent to 30 percent by taking several steps, such as eliminating aging printers and consolidating the print functions onto MFPs”
Gartner: "How to manage the hidden costs behind personal printers," August, 2005.
